PROFESSIONAL SUMMARY

Results-oriented IT professional with 3.5+ years in Robotic Process Automation, delivering process optimization using Blue Prism and Power Automate. Skilled in streamlining workflows and driving efficiency through automation solutions. Experienced in data analytics with practical knowledge of SQL, Power BI, and Python. Proficient in data cleaning, analysis, interactive dashboards, and KPI reporting to deliver actionable insights and support informed decision-making. Enthusiastic about using automation and visualization to address business problems and enable tangible outcomes.

SKILLS

- **Data Analytics:** Power BI, DAX, Power Query, Dashboard Development, KPI Reporting, Data Visualization
- **RPA Tools:** Blue Prism, Power Automate, UiPath
- **Database & Querying:** SQL, MySQL, Data Cleaning, Data Modeling
- **Programming:** Python, Pandas
- **Tools & Platforms:** ServiceNow, Excel VBA, GitHub, Microsoft Office
- **Technical Skills:** Process Documentation, Issue Resolution, Root Cause Analysis
- **Languages:** English, Hindi

EXPERIENCE

SENIOR ASSOCIATE CONSULTANT

Infosys | May 2025 – Present
Clients: Bayer | International Paper (IP)

- Designed and deployed automation solutions using Power Automate and Blue Prism by translating business needs into scalable workflows, implementing end-to-end testing, and driving production rollouts.
- Executed 30+ Blue Prism deployments across Dev, Test, and Prod environments, enabling faster automation releases and lessened manual effort.
- Maintained and supported 16 enterprise applications (Blue Prism, BME, GRFX, ESKO, LISAM, Celonis, etc.), achieving 95%+ system availability and ensuring uninterrupted business operations.
- Led a cross-functional team of 3 members to govern 16 packaged applications, prioritize incidents, and coordinate operational improvements for enterprise processes.
- Streamlined vendor coordination for installs, upgrades, and issue resolution, reducing turnaround time by ~40%.
- Led Oracle Java license compliance monitoring across Windows, Unix, and Workstation servers, mitigating multi-million-dollar audit risk exposure and ensuring 100% compliance readiness.
- Acted as a single point of contact (SPOC) for coordinating between business users, SMEs, and technical teams for issue resolution.
- Governed large-scale multi-application ecosystem with strong focus on governance, security, and operational excellence.

CUSTOM SOFTWARE ENGINEERING ANALYST

Accenture | December 2023 – May 2025
Client: Allegheny Technologies Incorporated (ATI)

- Created and developed Blue Prism workflows, reducing processing time by 50% increasing productivity.
- Ensured business continuity and decreased downtime by providing production support and incident resolution to all RPA bots.
- Served as the main point of contact for automation queries, troubleshooting system errors, ServiceNow incident logging, and resolution.
- Conducted RCA of recurring production and testing issues to take corrective and preventive actions to resolve problems and stabilize the process.
- Recorded process documentation, troubleshooting documents, and issue resolution records to enhance operational efficiency.
- Collaborated with business users and cross-functional teams to streamline and automate workflow.

CUSTOM SOFTWARE ENGINEERING ASSOCIATE

Accenture | August 2022 – November 2023
Client: Allegheny Technologies Incorporated (ATI)

- Decrease in business processing time by 50% by designing and developing RPA workflows using Blue Prism to automate processes
- Worked on requirements and helped in creating more than 20 high-level use cases over 10+ processes needed to be automated
- Collaborated with key stakeholders and the development team to strategically plan and enable scaling of RPA capabilities for the organization.
- Generated and maintained successful RPA deployments throughout the RPA lifecycle, starting from the design phase and ending with the deployment phase.
- Performed testing in 3 phases (development, testing, and production), validation of automation process, debugged issues, optimization, and enhancements if needed.

EDUCATION

GLA UNIVERSITY

AUGUST 2018 – JUNE 2022 | MATHURA, U. P
Bachelor of Technology in Computer Science

PROJECTS

Customer Churn Analysis | Python + MySQL + Power BI

- Performed data cleaning and exploratory data analysis on a customer churn dataset using Python (Pandas, Matplotlib, Seaborn).
- Queried and analyzed customer data in MySQL using joins, aggregations, GROUP BY, and CASE statements.
- Generated an interactive Power BI dashboard to analyse churn trends across tenure, contract type, internet service, and payment methods.
- Identified key factors contributing to customer attrition and highlighted high-risk customer segments.
- **Tech Stack:** Python, Pandas, Matplotlib, Seaborn, Jupyter Notebook, MySQL, SQL, Power BI, DAX, Power Query.
- **GitHub:** <https://github.com/Deepanshuu07/customer-churn-analysis.git>

Sales Analytics Dashboard | SQL + Power BI

- Built an interactive sales dashboard to monitor KPIs, including Total Sales, Profit, and Orders.
- Analysed sales data using SQL queries to uncover customer, regional, and category-level trends.
- Produced dynamic Power BI visualizations for business performance tracking and insight generation.
- Derived actionable insights related to top-performing products, seasonal trends, and revenue-driving regions.
- **Tech Stack:** SQL, MySQL, Power BI, DAX, Power Query, Data Visualization

Toy Store KPI Report | Power BI

- Formulated a retail KPI dashboard to track sales, profit, inventory, and product performance metrics.
- Established DAX measures and interactive reports for category-wise and store-level Analysis.
- Analysed seasonal demand patterns and inventory insights to support business decision-making.
- Improved data visibility through interactive dashboards and KPI-driven reporting
- **Tech Stack:** Power BI, DAX, Power Query, Data Visualization, KPI Reporting

CERTIFICATIONS

- **Microsoft Certified: Power BI Data Analyst Associate**
- **Kaggle Python Certificate**
- **Kaggle Pandas Certificate**
- **Microsoft Certified: Power Automate RPA Developer Associate**
- **UiPath Certified Professional Automation Developer Associate**
- **Google Analytics Skillshop Certification**
